EOSC support by the European Commission

- Keeping the **policy momentum: EOSC as a pillar of the digital transition**
 - ‘Open Science including EOSC’ fully embedded in the *ERA Policy Agenda*
 - EOSC as a sectoral data space of the *European Strategy for Data*
- Support through the **Horizon Europe programme**
 - Implementation of *Research Infrastructure Calls*: direct EU investment in EOSC developments of up to €490 million
 - Including also *procurement of EOSC managed services* by the EC
 - *Studies* commissioned by the EC, e.g. the European Research Data Landscape study
- Continued involvement notably in:
 - The *EOSC governance* (EOSC Steering Board, EOSC Partnership Board)
 - EOSC *coordination with ERA-Forum, ESFRI and various MS-driven think tanks*
 - *EOSC thematic demonstrators and good practices* (e.g. the European Covid-19 Data Platform, the Blue Cloud, the science clusters)
 - The *monitoring* of the uptake of Open Science and ‘EOSC readiness’

research infrastructures that
is more **effective** and
efficient, **open** and
accessible, and **sustainable**

Open collaboration, within
science and with broader
public and private sector

Key enablers of Open Science practices

EOSC in the ERA policy Agenda (2021-2024)

ERA Policy Action 1: *“Enable the open sharing of knowledge and the re-use of research outputs, including through the development of the EOSC”*

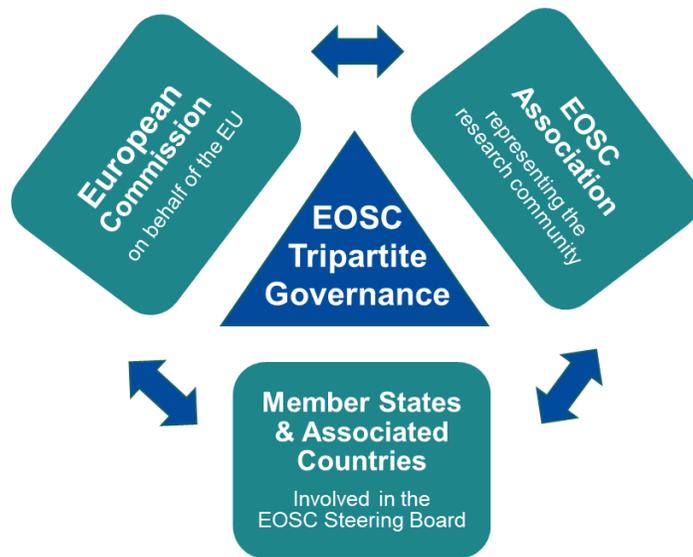

- **Deploy Open Science principles and identify Open Science best practices**
 - Mainstreaming OS across national programmes, catalogue of OS practices, tools and services, data scientists and data stewards, national EOSC tripartite events ...

- **Deploy the core components and services of EOSC and federate existing data infrastructures in Europe, working towards the interoperability of research data**
 - Horizon Europe support to EOSC Partnership, connection of national/regional research infrastructures to EOSC federation, community frameworks for interoperability & quality control ...

- **Establish a monitoring mechanism to collect data on investments, policies, digital research outputs, open science skills and infrastructure capacities related to EOSC**
 - Co-development of EOSC national surveys, roll-out of key layers of monitoring mechanism ...

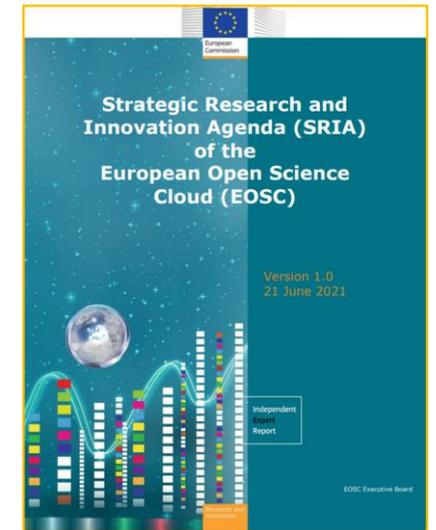

Enabling Open Science through EOSC

- **A community-driven process** (commitments by EU Member States, Associated Countries, research stakeholders)
- **Gradual implementation** based on **mutual alignment** and pooling of resources at European, national and institutional levels. Move **from prototyping to operations**

With direct support by: 

- **EOSC European Co-programmed Partnership** to pool commitments and resources along priorities set in the EOSC Strategic Research and Innovation Agenda
- **EOSC tripartite governance** to ensure dialogue and strategic coordination between EC, EU Member States and Associated Countries, and EOSC Association

Monitoring national contributions to EOSC in 2022-2023
