EOSC SB CURRENT ACTIVITIES

1. THE FUTURE MODEL OF EOSC BEYOND 2027.
2. ESFRI – EOSC TASK FORCE.
3. EOSC & DATA SPACES
4. EOSC MONITORING

THE FUTURE MODEL OF EOSC BEYOND 2027

EOSC TODAY: Horizon Europe co-programmed EOSC Partnership

- Launched June 2021. Founding partner, CSIC
- One billion euros commitment by the European Union and the EOSC Association

1. Co-Programmed European Partnership.
2. Co-funded European Partnership using a programme co-fund action
3. Institutionalised European Partnerships. Joint Undertakings. Art 187/Art 185
4. ERIC. European Research Infrastructure Consortium
5. EDIC. European Digital Infrastructure Consortium
6. PRIVATE MODEL under a public procurement

ESFRI – EOSC TASK FORCE.

Council Conclusions December 2022.

Research Infrastructures: FAIR Data providers and knowledge hubs on OS

Federation of RI data, services & e-infrastructures to EOSC.

EOSC & DATA SPACES

Coordination of efforts to design a formal relationship between EOSC and the 9 Thematic Data Spaces to exploit the data pivotal role in the data space ecosystem dealing with aspects as interoperability and governance.

The European Health Data Space (EHDS) is the first with which EOSC is working to design a formal relationship.

EOSC MONITORING

An EOSC Observatory has been built with the technical support of the EOSC Future Project to gather information of MS in order to show the state of development of EOSC at MS & AC level.

Discussions :

- Validity and homogeneity of data.
- Data confidentiality and visualisation of information
- Sustainability of the observatory.
- How to harmonise the observatory with other monitoring exercises done in the context of ERA FORUM and Open Science.

NEXT STEPS:

Update the survey introducing improvements, attend the requests on standardisation of data by countries.

Launching the next survey before the end of 2023.
