EOSC ASSOCIATION

Contributions to additional activities 2024

SURVEY

Description

Dear EOSC Association Members, Dear Colleagues,

We, the EOSC Association and its Members, have committed to the European Union to deliver a volume of Additional Activities totalling to at least €500 million, over the duration of the partnership (until the end of 2023), towards the objectives defined in our [HE EOSC Partnership Memorandum of Understanding](#).

Additional Activities are defined as the contributions, either in in-kind or in monetary forms, which are NOT financed by the European Union (for example, through the Horizon Europe project grants).

The Additional Activities are to be monitored according to a framework established by the EC for all HE co-programmed partnerships, which includes:

- an (ex-ante) annual forecast of the contributions, for the coming year (planning phase); and:

- a (ex-post) validation of the actual contributions, provided in the previous year.

The objective of this AAP 2024 survey is to define the budget resulting from the forecast provisions of Additional Activities by EOSC-Association Members, for 2024; and, ultimately, to present the “Additional Activities Plan” (AAP), for 2024, to the Partnership Board.

The questionnaire comprises three sections:

- Section I ‘Your organisation profile’;
- Section II “Additional activities 2024”, requesting information on forecast contributions for 2024; and:
- Section III “Additional activities 2024: case studies”, asking for a detailed description of at least one flagship initiative among the planned activities reported in section II.

Please note:

- Respondents should only take the survey once. If you need to close the survey before you have finished, please save it as a draft (using the button on the right side of the screen). You will receive a link, which, at any moment, will take you back to back to your saved survey.
- Responses are editable until you reach the final page, after which it is not possible to go back to the previous sections of the questionnaire.
- All questions marked with a star sign (*) are mandatory.

The survey will remain open until the 15th of September. If you are likely to experience difficulties meeting this deadline, please, inform us, so we can find solutions.

Training sessions are available, please find a calendar and registration link, here: <https://eosc.eu/form/aap-survey-training-sessions->

For any concern, please, contact us: monitoring@eosc.eu

Thank you for your participation, we truly appreciate your input.

II. ADDITIONAL ACTIVITIES 2024

Please note:

- In the table below nine categories are given by the European Commission in which our members are asked to indicate their planned additional activities. Each category lists also a certain number of applicable activity types, where you can describe your contributions.
- For each activity type that applies to your plans, in each category, please indicate the planned contribution, including in-kind contribution, for the calendar year 2024, in terms of:
 - Full-Time Equivalents (FTEs): and;
 - The monetary value* (€) of the described activities, including the FTEs (e.g.: costs of upgrading an infrastructure, cost of a license or a piece of equipment, cost of IP protection or spin-off initiatives, etc.).
- **For your information, we will use a standard conversion factor of 100000,00 Euro per 1 FTE (i. e.: 1 FTE = 100000,00 EURO/YEAR), to calculate the monetary value of your FTE contributions. If the applied conversion factor for 1 FTE is significantly different than 100K euro, please indicate this value at the end of this section.**
- For all the types of activities that apply to your AAP, please also provide a careful and concise description of the activity, highlighting their relevance to EOSC, and a relevant weblink (if available). One flagship initiative can be described in full details in the last section (III) of the survey.

* Is the applied conversion factor for 1 FTE equal to €100000,00 Euro?

- Yes, it is
- No, it is different

* Please provide a conversion factor for 1 FTE:

(no spaces, a comma as a separator for decimal places, e.g.: 100500,00 euro)

 euro

Category 1. Support to additional research and innovation

This category covers the following additional (i.e., not funded through Horizon Europe/Horizon 2020 in the context of the partnership) activities:

- R&I activities funded by a public research funder which is a member of the EOSC Association; AND /OR:
- R&I activities executed by a public research performer which is a member of the EOSC Association, funded through for instance a regional or national R&I funding programme or its own institutional funding.
- Service provision activities (not funded through EU-programmes), which are relevant for and in line with the objectives of the EOSC partnership, executed by either private-nature or public nature entities, which are members of the EOSC Association, funded through, for instance, a regional or national R&I funding programme or own institutional funding.

Please note that:

- If a private-nature partner has received co-funding for a project from a public entity which IS a member of the EOSC Association, then the entire project should be counted in this category (also the part co-financed by the public entity).
- In this category, R&I should be understood as covering the full range of TRL levels.

Category 2. Scale up of technologies

This category covers different scale-up activities (typically at TRL levels 4-5). These are mostly trials/tests of proof-of-concept models, i.e., validation of the technology in lab or relevant environment.

These activities must be totally funded and executed only by private entities that are members of the EOSC Association. If there is public co-funding, they should be reported in Category 1.

Category 4. Creating new business opportunities

Please note that "Creating business opportunities" can only happen once the product or service is available in its fully developed form (i.e. when the "Scale-up of technologies" step is fully finished, and normally also when the "Demonstrators" step has been finished).

III. ADDITIONAL ACTIVITIES 2024: CASE STUDIES

CASE STUDY 1

* Additional Activity category

- Category 1. Support to additional R&I
- Category 2. Scale up of technologies
- Category 3. Demonstrators

- Category 4. Creating new business opportunities
- Category 5. Training & skills development
- Category 6. Contribution to the development of new standards, regulations, and policies
- Category 7. Supporting ecosystem development
- Category 8. Communication, dissemination, awareness raising, citizen engagement
- Category 9. Other

*** Additional Activity type - category 1**

- Activity type 1.1 Upgrade of existing research (e-) infrastructures that may be federated through EOSC
- Activity type 1.2 Development and deployment of EOSC-compatible search engines allowing the researchers to explore rich metadata...
- Activity type 1.3 Deployment of online tools for FAIRification [including to help creating FAIR Data Management Plans]
- Activity type 1.4 Development and publication of large-scale studies
- Activity type 1.5 Contribution to operating core functions of a Minimum Viable EOSC ecosystem

*** Additional Activity type - category 2**

- Activity type 2.1 Investment done complementing the results of a project, bringing it to a higher TRL level or to deployment
- Activity type 2.2 Uptake of EOSC projects' outcomes e.g., through adoption of new open specifications...
- Activity type 2.3 Implementation of technical specifications required to provide services through the EOSC

*** Additional Activity type - category 3**

- Activity type 3.1 Investment in new platforms, demonstrators, pilot use cases exploiting domain-specific user environments...
- Activity type 3.2 New (pre-)commercial services and capabilities along the data life cycle

*** Additional Activity type - category 4**

- Activity type 4.1 Invest in start-ups, spin-offs on solutions developed within the projects
- Activity type 4.2 Start incubators/accelerators
- Activity type 4.3 Matchmaking between different start-ups, - SMEs, participating companies, stakeholders
- Activity type 4.4 Investments in procurement of innovative solutions

Additional Activity type - category 5

- Activity type 5.1 Education, training and skills development in Open science...

*** Additional Activity type - category 6**

- Activity type 6.1 Standardisation and certification activities related to EOSC trusted repositories (e.g., CoreTrustSeal and FAIR)

- ⦿ Activity type 6.2 Contribution to the development of applicable FAIR guidelines and frameworks [such as software, code...]
- ⦿ Activity type 6.3 Continuous standardisation of persistent identifier (PID) resource types
- ⦿ Activity type 6.4 Support research communities to: develop and/or adopt domain-specific standards as well as to consolidate common metadata...

*** Additional Activity type - category 7**

- ⦿ Activity type 7.1 Define and/or test financing models for a long-term EOSC sustainability framework
- ⦿ Activity type 7.2 Development of consensual EOSC frameworks and guidelines [e.g. for interoperability...]
- ⦿ Activity type 7.3 Support to knowledge building and sharing across various research domains
- ⦿ Activity type 7.4 Building industry-academia cooperation at regional, national, or international level
- ⦿ Activity type 7.5 Implementation and/or enforcement of the EOSC Persistent Identifier (PID) policy and architecture
- ⦿ Activity type 7.6 Encouraging and incentivising use of European Research Infrastructure for sharing of research software
- ⦿ Activity type 7.7 Monitoring of EOSC key performance indicators (KPI's), investments and FAIR data production and management
- ⦿ Activity type 7.8 Contributing to a rewards and recognition framework – in and/or outside the organisation- that incentivises FAIR data...
- ⦿ Activity type 7.9 Activities contributing to strategic and operational alignment, coordination, or synergies with other structures...
- ⦿ Activity type 7.10 Being the contact point or coordination mechanisms for EOSC uptake at national or institutional level

*** Additional Activity type - category 8**

- ⦿ Activity type 8.1 EOSC-related communication, dissemination, outreach, and awareness raising activities
- ⦿ Activity type 8.2 Promoting EOSC at all levels by engaging with relevant communities and stakeholders

*** Additional Activity type - category 9**
