

Scientific keynote: FAIR, what else?

Questions posted on Slido

- Materials Cloud uses AiiDA to capture the full provenance graph of calculations, allowing results to be reproduced. Does Nomad have similar tools in the works?
- Thank you for the inspiring talk. Can you better explain the role of hpc in nomad? Is it integrate with the infrastructure?
- Does nomad provide an auditable trail of data/metadata/code from beginning of an experiment to data point in a figure of the paper?
