National Research Data Infrastructure in Germany

nfdi Nationale
Forschungsdaten
Infrastruktur

National Research Data Infrastructure for Personal Health Data

Our mission:

To **increase the value of research** in

- epidemiology
- public health
- clinical trial-based medicine

by making high quality data internationally *findable* and *accessible* according to **FAIR principles**.

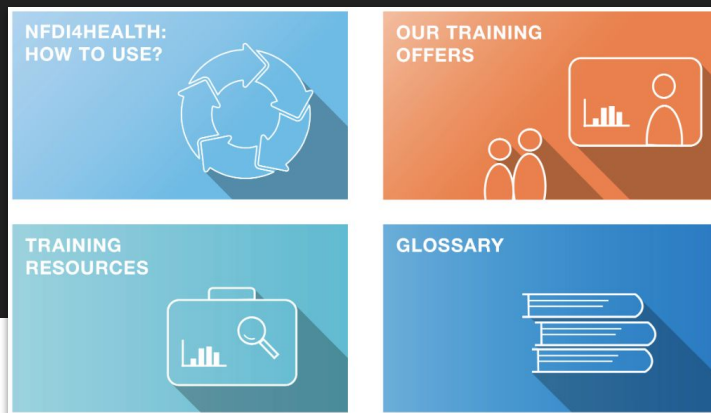

Data Holding Organisations

Training and Education

- Training the **next generation** of **data-savvy** researchers & data stewards
- Data competencies
 - [DataTrain](#) (cross-domain data steward & data science programme)
 - [NFDI4Health specific](#) synchronous/ asynchronous
- EduTrain and [ELSA](#) participation

Training concepts in research data management and data science with the focus on health research

National Research Data Infrastructure for Chemistry (NFDI4Chem)

Our vision:

www.nfdi4chem.de

Our partners:

Training and Education in NFDI4Chem

Workshop: FAIR RDM: Basic for Chemists

- RDM entry-level workshops for Chemists (1-2 days, 5-6 h/day)

Chemotion ELN Hands-on Workshops

- Interactive workshop for Chemotion ELN beginners (5-6 h)

Chemotion Live Demo + Q&A Session

- General introductions to the ELN & repository, followed by Q&A (1 h)

LabIMotion: Hands-on Workshop

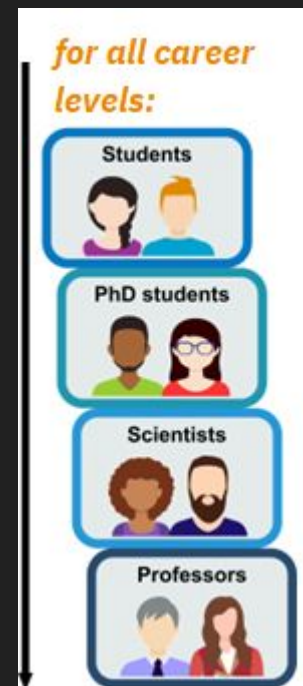

- Interactive introduction to LabIMotion – Chemotion's generic extension (5-6 h)

NFDI4Chem Stammtisch

- Presentations and discussions on a variety of RDM topics (1 h)

Curricular Embedding

- Integration into curricular teaching → Training of future researchers

Section Education & Training (Section EduTrain) in the NFDI

- Cross-cutting topic: All NFDI consortia address data literacy education and training in a bottom-up approach.
- EduTrain is the platform to discuss and harmonize all approaches and solutions to education and training in data literacy.
- EduTrain is working with other stakeholders to develop an NFDI understanding of data literacy.
