EOSC Partnership SRIA Objectives

General Objectives

General Objectives of the Partnership as defined in EOSC SRIA (v1.0)

G01: Ensure that Open Science practices and skills are rewarded and taught, becoming the 'new normal'

G02: Enable the definition of standards, and the development of tools and services, to allow researchers to find, access, reuse and combine results

G03: Establish a sustainable and federated infrastructure enabling open sharing of scientific results

EOSC Co-Programmed Partnership - MoU

The EOSC Partnership Memorandum of Understanding

Memorandum of Understanding between EOSC-A and EC, signed on 30th July 2021

Selected EOSC-A obligations:

- ❑ Measuring the progress of the Partnership towards its objectives based on Key Performance Indicators (KPIs)
- ❑ Reporting on delivery of in-kind contributions to additional activities and investments in operational activities (AAPs)
- ❑ Providing Impact Use Cases

EOSC KPI Survey 2026 - Overview

At a glance

- The Biennial KPI Survey for the EOSC Partnership 2026 will be open to both Members and Observers
- The survey is streamlined with targeted questions per stakeholder group => lower burden!
- The aggregated and anonymised results are one of the instruments that the EC utilises to monitor the performance of the EOSC Partnership and its progress against the SRIA objectives.
- EOSC-A members are invited to fulfil this mandatory activity and complete the survey through the EOSC Monitoring Tool by the 23 October 2026.
- Three occasions for training, upon registration, to complete the survey and using EOSC Monitoring Tool
 - 10/09, h12; 11/09, h11; 16/09, h15.

EOSC KPI Survey 2026 - Timeline

- ❑ KPI Survey 2026 open time-window - 7 Sep. – 23 Oct. 2026
- ❑ KPI Survey Training sessions - 10, 11 and 16 Sep 2026
- ❑ Preliminary results at PB#10 - Q4 2026
- ❑ EOSC Gravity D7.2 – Q1 2027
- ❑ EC reporting (BMR, FMR..) - Q1 2027

EOSC Monitoring Tool - Main Features

□ Purpose:

- Streamline surveys to reduce the time and effort spent on reporting.
- Provide one central database where all survey submissions can be stored.
- Offer visual dashboards to track data and support evidence-based planning.
- Create a secure EU-GDPR compliant system.

□ Key Features:

- **Security & compliance:** encrypted storage, AAI login, clear rules for access.
- **Ease of use:** simple interface for editing and submitting surveys, with support for different user roles.
- **Collaborative editing:** multiple users in the same organisation can work together on the same survey draft.
- **Simplified reporting:** pre-filled fields based on previous submissions, reducing the time needed to complete surveys.
- **Centralised data:** all submissions in one place.
- **Smart reporting:** built-in charts for quick insights.
- **Integration & accuracy:** connected with EOSC-A's member organisations database for data accuracy.
- **Future-ready:** flexible design to grow with the users' needs.

Monitoring Tool

Welcome!

The EOSC Monitoring Tool has been developed by the EOSC Association, with the support of EOSC Focus. It is an online survey and analysis platform aimed at supporting the monitoring efforts of the EOSC Partnership and alleviating the burden for EOSC-A members in complying with the monitoring processes.

The platform has been designed to facilitate the monitoring and evaluation of the Partnerships Additional Activities and Key Performance Indicators, while ensuring a secure, EU-GDPR-compliant environment.

Users of the EOSC Monitoring Tool have access to open surveys, with the ability to resume drafts of partially completed surveys and to review the data contained in their submitted surveys.

If you require an account, have questions about the tool, or encounter any problems, please reach out to us at monitoring@eosc.eu.

KPI Survey 2026

Section 1. INTRODUCTION:

Presents the purpose and structure of the survey along with additional important information

2026 KPI Survey

Four main sections of the survey

Dear EOSC Association Members, dear Colleagues,

You are kindly invited to participate in the EOSC Partnership KPI Survey, as part of the regular biennial duty of the EOSC-A Association members.

The aim of this year's questionnaire is to measure the progress of our Key Performance Indicators (KPIs) against the EOSC SRIA objectives, during the years 2024-2025.

In order to reduce the survey burden, you will be asked to identify the type(s) of organisation that you represent, among the following cases. **You will only receive the set of questions that are relevant. However, it is extremely likely that you will need to choose more than one group:**

- Research Performing Organisation (RPO)
- Research Funding Organisation (RFO)
- Service Provider (SP)
- ESFRI Research Infrastructure (RI)
- Member/Observer of the EOSC Association
- Monitoring team at the EOSC Association (role reserved for the EOSC-A Secretariat)
- EC/EOSC-A (role is reserved for the EOSC-Association Secretariat and EC representatives)

Each question is labelled with a specific code (e.g.: 001_01; S03_02), which corresponds to the KPI code in the [EOSC Partnership Monitoring Framework \(v7.0\)](#); you may refer to this document to clarify the sense of the survey questions.

A series of training workshops will be held to help you navigate this survey and clear any doubts you may have. **You may register here:**

<https://eosc.eu/registration-webinars-for-respondents-to-biennial-kpi-survey-for-eosc-partnership/>

The data collected through this survey will be analysed in anonymised and aggregated form, for the EOSC Gravity report of the EOSC Partnership KPI-status assessment, to be published in early spring 2027.

The information will also flow into a series of reports for the EOSC Partnership evaluation by the EC.

We will be grateful for your feedback on the survey experience. If you wish to share your considerations, please use the optional comment box at the end of this questionnaire.

Thank you very much for your time and support!

Target: Research Performing Organisations (RPOs)

- S01_01 Please indicate the number of publications (e.g. articles, chapters, books, conference papers, policy papers, preprints, lecture notes) which your Research Performing Organisation released in 2024 and 2025 (combined) and the number of them which were available in immediate (e.g. gold) open access.
- S02_02: Is the research activity carried out by your organisation supported by professional data stewards?
- O03_01: Does your Research Performing Organisation provide training for the upskilling of their researchers in Open Science?
- O05_01: Has your organisation participated in developing components of a FAIR ecosystem, such as standards, schemas, APIs, metadata frameworks?
- O011_01: Does your organisation adopt and use persistent identifier (PID) allocation practices?

eosc Biennial KPI Survey for EOSC Partnership - 2026

Target: Research Funding Organisations (RFOs)

- S03_01: Does your Research Funding Organisation require data sharing and/or incentivise data re-use?
- O07_01: Does your Research Funding Organisation require the description of the software source code and of its management in Data Management Plans (DMPs)?

eosc Biennial KPI Survey for EOSC Partnership - 2026

Target: Service Providers (SPs)

- 005_01: Has your organisation participated in developing components of a FAIR ecosystem, such as standards, schemas, APIs, metadata frameworks?
- 0014_01: As of 2025, has your organisation either developed, adopted or tested models for the availability and costing of services offered transnationally (i.e.: services to organisation located outside your country, while still in EU and associated countries)?

eosc Biennial KPI Survey for EOSC Partnership - 2026

Target: ESFRI Research Infrastructures (ESFRI Ris)

- S04_02: Has your Research Infrastructure developed or adopted documented standards and protocols for data sharing and re-use?
- S07_01: Does your Research/ Data Infrastructure have developed relevant data and/or services specifically aiming to be offered through EOSC?
- O014_01: As of 2025, has your organisation either developed, adopted or tested models for the availability and costing of services offered transnationally (i.e.: services to organisation located outside your country, while still in EU and associated countries)?

Biennial KPI Survey for EOSC Partnership - 2026

Target: EOSC Association Monitoring Team (EOSC-A Secretariat)

- S09_01: Please list the names of new members with observer status who joined the Association from outside EU MS/AC, in the years 2024-2025
- S09_02: Please indicate the number of connections and/or collaborations between EOSC (also via its bodies) and non-EU/international cloud and commons initiatives.
- 001_01: What is the number of EOSC Core federating capabilities?
- 001_02: Please indicate the types of members in EOSC-A. Free text answer: Number of RPOs; Number of RFOs; Number of Libraries; Number of Service Providers other than ESFRI RIs; Number of ESFRI RIs; - Number of Mandated Organisations; Number of International -Organisations other than ESFRI RIs. Please indicate the geographic spread of members in EOSC-A. Please indicate the geographic spread of EOSC-A Board of Directors.
- 002_01: Is a monitoring system (like a dashboard) to gather OS metrics of the evolving landscape of policies, infrastructures and open resources publicly accessible? Please provide a comment.
